

WM 11-6733

Colonel William S. Rader
Commander, 13th Air Division
Francis E. Warren Air Force Base
Cheyenne, Wyoming

Dear Colonel Rader:

I should like to express our appreciation for the excellent orientation on Atlas deployment recently provided by you and the personnel of your command to [REDACTED] of this Agency. The information acquired will be of great value in furthering the work of intelligence on foreign missile deployment.

Please extend our gratitude, in particular, to the Plans and Training Officer for the 706th Missile Wing, Lt. Colonel Walter A. Hardwick and to Major Bricker of that office. They were most accommodating and arranged a tour suited exactly to our people's needs.

I hope that you are enjoying your duty at Warren as much as you did at Vandenberg where you took such good care of us.

Best regards,

Sincerely,

C. R. Cabell
General, USAF
